

## SCENIC COB-200W

### 200W Warm-Cold White COB Led Par Light

Centolight Scenic COB-200W is a 200W COB Led Par with 60° beam angle. The light source combines Warm-White at 3200K and Cold-White at 6500K, both controllable separately in manual or DMX mode. It is designed for all those applications that could need variable white color temperature, as live shows, discos, showrooms, etc.

The silence is guaranteed by the quality of cooling fan controlled by the internal processor, which maintains the overall noise within 20dB @ 1m. The structure of the light is in die-cast aluminum, for maximum lightness and robustness. The fixture is also equipped with brand-door.
