

## ZEPHIRO FOG 900

900 Watt Fog Machine with wired and wireless control

It is well known how the world of show business and entertainment is based on the fusion of music, images, lights and environmental effects. The sensory involvement of those who enjoy the entertainment event is increasingly present nowadays. Centolight knows very well this need and thanks to the Zephiro line it offers a wide range of machines for smoke, fog, bubbles, snow and more.

Zephiro Fog 900 is a powerful and compact fog machine; designed for professional small to medium on-stage applications and equipped with wired and wireless control. It can generate a persistent and homogeneous fog that greatly enhances visual effects and light beams of any type of fixtures in settings such as theaters, photo and TV studios, film sets, discos, live events, etc.

It has a power output of 900W and is designed for indoor applications with an output of 140m<sup>3</sup>/minute. Consumption is about 1L/hour of continuous emission (depending on liquid density). The internal tank is 1 liter.
